Despite repeated statements they would get back to me, the publisher has not provided the date for this journal.

I contacted the following libraries for their corresponding receipt dates:
John Hopkins Welch Library - October 9, 2001

CISTI (Canada Institute for Scientific and Technical Information) - October 17, 2001

U of Minnesota, Biomedical Library - October 11, 2001.

Please let me know if you have any questions.

Examiner Kapushoc,

The publisher just emailed me. The print date (9/20/01) and the corresponding mailing date (9/24/01) are a couple weeks earlier than the library receipt dates that I was able to give you.

Please let me know if you have any questions.

Hello Kristine,

Sorry I have not gotten back to you until now. It has been very busy here. Here is the information you requested:

the online publication date of this article is: November 2, 2004

the printed publication date is: September 20, 2001

The mailing date would have been a few days after the printed pub date so it would be around September 24, 2001.

Please let me know if you have any other questions.

Thank you,

5/29/2007

Sonia

Ms. Barbosa,

I am a Reference Librarian at the U.S. Patent and Trademark Office. I am trying to find the publication date (print and online, if the latter is applicable) and the mail date (date the issue was mailed from the printer to the subscribers) of the following article:

Polly J. Shrewsbury, Susan J. Muller and Dorian Liepmann

Effect of Flow on Complex Biological Macromolecules in Microfluidic Devices

Biomedical Microdevices 3(3); Sept. 2001p. 225-238(14)

Please send me the information via email or you can fax or call me at the corresponding numbers below. (My mailing address is below if you wish to send an additional copy by mail.) Please contact me if you have any questions. Thank you for your assistance.
